

Recovery Residence Partners

NUWAY's recovery residence partners are easily accessible in the community and close to our outpatient counseling centers. Our R.I.S.E. (Recovery In Supportive Environments) model of outpatient services includes recovery residence support for those in clinical need and removes the environmental support (i.e. housing) barrier faced by many in early recovery. Additionally, upon treatment completion at NUWAY, clients have the option to remain in their recovery residence, thereby reducing risk during transition and enhancing long-term recovery outcomes.

NUWAY provides recovery residence support up to \$550.00 per month toward program fees at an identified Recovery Residence partner for treatment compliant NUWAY clients. Deposit and any difference beyond \$550.00 in monthly program fees are the responsibility of the client.

We partner with over 80 organizations. Our website includes a filter tool to identify a recovery residence that best meets client needs.

Visit www.nuway.org/provider-partners to utilize the filter option. Filters include:

- Gender
- City
- Distance from outpatient location
- Suboxone supportive
- MASH member
- Methadone Supportive
- Felon friendly
- Faith based
