**PEER-RUN,
SELF-SUSTAINING,
& SUBSTANCE-FREE
RECOVERY HOUSING**

Structured Environment

The Oxford House Model is proven to be successful and has been around since 1975. The system of operations is easy to learn and protects members and the house.

Affordable Costs

Each member pays an equal share of all of the bills, including basic house supplies. This helps keep the cost low, even for a nice, big house in a good neighborhood.

Peer Support

Living with others in recovery and sharing the responsibility of maintaining a home helps in building a strong foundation to gain long-term recovery
