

Serving Clients with Co-Occurring Disorders

12-CE Hours February 15-16, 2024 \$300.00

9am to 4pm daily On-Line Training via Zoom

Co-Occurring impacted clients present with both substance use and mental health issues. Providers are expected to accommodate the needs of these clients beginning with the pre-placement assessment, providing an integrated treatment regime, and ending with the development of a comprehensive and coordinated continuation of care plan.

This two-day interactive on-line training will provide advanced levels of both knowledge and clinical interventions in the mental and substance use disciplines by focusing on the clinical skills, tools and community resources needed to appropriately serve this client population.

Participants will be able to better teach, treat and empower the client with co-occurring disorders. In addition participants will explore how to help clients identify and remove barriers to successful life management.

As a result of this training, participants will be able to:

- Define Co-Occurring Disorders while identifying basic client needs.
- Provide treatment services in a culturally competent and ethical manner.
- Appropriately assess, intervene and manage crisis situations.

Pre-registration and pre-payment is required. Registration closes 2/14/24. Zoom link and packet download instructions will be e-mailed on that date. Participants needing materials in alternate formats should contact EDENS GROUP no later than 10 business days before the training.
